

Abstract

A solid, water-free and alkanol-free composite material comprises organic and/or inorganic water-insoluble particles or pigments in a mixture with at least one compound of the general formula (I)

where

R is H, C<sub>1-6</sub> alkyl or benzyl

A is ethyleneoxy

B is C<sub>3-10</sub> alkyleneoxy or mixtures thereof,

it being possible for groups A and B to be randomly distributed, alternating or in the form of two or more blocks in any order,

n is an integer in the range from 4 to 8

x is a number in the range from 1 to 25

y is a number in the range from 0 to 10

and x + y is at least 1.
